

# Mississippi Water Stewards Monitoring Workshop

You are invited to join us in protecting Mississippi's water resources and watersheds! Learn **bacteriological and chemistry** water testing methods to track trends in water quality over time and collect data that can be used to detect watershed impairments.

**Self-paced online course work opens May 26, 2023.**

**In-person workshop: Thursday, June 22, 2023 in Biloxi, MS.**

## Become a MSWS monitor in 4 steps.

- 1. Register** for the training to reserve your seat! \_
- 2. Join the Zoom kick-off meeting** (optional), May 26.
- 3. Complete the self-paced, online coursework** for the monitoring types of interest, May 26- June 21, 2023.
- 4. Participate in the in-person workshop** to demonstrate monitoring methods Thursday, June 22, 2023 in Biloxi, MS.

**For additional questions, please email or call Dr. Beth Baker at [beth.baker@msstate.edu](mailto:beth.baker@msstate.edu) or 662-325-7491.**
